

As a student what is the accountability that you face?

I think for me as a student the accountability that I face the most is financial accountability, I need to manage my own money by myself. I need to make sure that I'm not overspend and I really need to save some money for emergency funds. Plus I need to make sure I always buy what I need and not what I want.

In your opinion, should VALUE be something incorporated in your field of study? Please explain your stance.

In my opinion, yes value must incorporated in my field of study. For instance, teamwork. Teamwork is very important since we have a lot of group projects. We need to work as a team and take a good care with each other physically and mentally, also we need make sure all of us gave full of commitment. Other than that is we need to develop all the moral values that we learn such as integrity, responsible and others to our daily life.

As a future leader of the world, what would be the MAIN problem you would like to find a solution(s) you could employ? Please briefly explain your answer.

As a future leader of the world, a MAIN problem that I would like to focus on is about unnecessary war that happens between countries. For a better understanding, we can use the situation that is happening between Palestine and Israel. As we all know, all the main countries in the world such as The United States of America and United Kingdom provides military support towards Israel. This action left Palestine helpless and unable to fight for their rights. I would to prevent, this by holding a meeting between countries all over the world without the use of veto power but rather based on a sense of humanity. A better solution can be hatched and less blood will be spilled.

List 3 good things and 3 not so good things about the Premier Speech (in your opinion).

Good things :

1. well-planned content
2. Punctual
3. raising awareness

Not so good things :

1. The speaker read the slide only
2. Need to renew supporting media
3. Boring method of presentation

List 3 characteristics of people with integrity.

Honesty, Accountability, Transparency

What was your takeaway from the first speech?

UTM core values which are synergy, integrity, excellence and sustainability. We need to live with good values and purpose that can be developed throughout our daily life. Other than that, I know that values are important because they provide a framework for guiding our thoughts and behaviour.

What was your takeaway from the second speech?

Talking about corruption gave me awareness and consequences of involving in corruption. Also the type of corruption.

“If one is desperately poor, and hungry. And in desperation, they steal to eat. Are they bad people? “. How would you answer this question?

For me they are still call a bad people because they dont ask permission from the owner. At least he/she put some note say that they really need some food. I personally think that no one will say no if they look desperate and ask for help. Besides, more people will help them.

What are your suggestions to make the Premier Speech better and more impactful?

Make the slide more interesting and also the speech by the speaker. Prepare a lot of gifts so that students will be eager to focus on the speech.
